KML is certified by the Forest Stewardship Council (FSC) for Single Chain-of-Custody through the **Rainforest Alliance**. This certification traces the path of products from forests through the supply chain.

With eight presses and two facilities producing more than **4,000 panels a day**, KML recognizes that its commitment to reducing emissions, using innovative materials and recycling is essential.

Since 1995, KML has grown into a **national leader** in the decorative surfaces and panel industry, with a proud history of providing stable manufacturing opportunities to American families.

KML is a member of the Composite Panel Association (CPA), which represents the composite panel and decorative surfacing industries and brings together the entire affiliated value chain.

KML is proud to be featured in the ARCAT online database. Through ARCAT, architects, spec writers, engineers, designers, and contractors can locate detailed information on KML designer finishes.

Now designers can "go wild" with exotic finishes, superior color consistency, fade resistance, and an authentic wood texture without using precious natural resources.

go wild

no project is **too big** or too small.
we do what it takes to **exceed** expectations

we offer panels in over **40 stock**
colors and over **800 specialty** colors

thousands of design options
for unrestricted **creativity**

family owned and operated in the USA,
KML is a leader in **innovation** and **service**

1. LAMINATION

Using a quality lamination process is the first step to a successful project.

TFL (Thermally Fused Laminate) is made by fusing a resin-coated sheet of décor paper directly to a substrate. There is no kraft paper used in TFL, and the resulting panel is ready for fabricating.

The décor paper generally weighs between 60 and 130 g/m2 and is the same as the paper used in the production of HPL, making for easy matching across materials.

Heat and pressure activate the resin in the saturated TFL sheet, creating a cross-linked bond with the substrate. This effectively seals the substrate.*

2. SUBSTRATES

Different core materials provide options for cost, weight, fire rating and moisture.

Particle Board
BOARD SIZE 4'x8' – 5'x12'
THICKNESS 1/4" – 1 1/2"
FIRE RATING Class A available
MOISTURE MR50 available

MDF
BOARD SIZE 4'x8' – 5'x12'
THICKNESS 1/4" – 1 1/2"
FIRE RATING Class A available
MOISTURE MR50 available

Ply-Core
BOARD SIZE 4'x8' – 5'x12'
THICKNESS 1/2" – 1 1/2"
FIRE RATING Class C
MOISTURE N/A

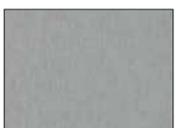

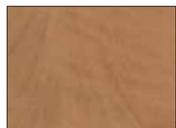

MightyLITE
BOARD SIZE 4'x8'+
THICKNESS 3/4" – 4"+
FIRE RATING Class C
MOISTURE N/A

3. COLORS + DESIGNS

KML designer finishes are available with Arborite®, Arclin®, Formica®, Tafisa®, Uniboard®, and Wilsonart® designs, in addition to a line of exclusive designs only from KML.

Below are the **in-stock options** from our Classic Collection.

 KMD710 Rainier White	 KMD701 International White	 KMD716 Antique White	 KMD730 Almond	 KMAU601 Folkstone
 KMD722 Fog Grey	 KMAU002 Black	 KMAK610 Silver Frost	 KMW4779 Pewter Brush	 KMD8077 Hemlock Grey
 KMW7962 Aloe	 KMD7344 Magellan	 KMD7342 Hudson	 KMW7949 Asian Night	 KMW7952 Asian Sand
 KMW7951 Asian Sun	 KMD7146 Light Bamboo	 KMD7145 Burnt Bamboo	 KMAH3033 Miele	 KMW7816 Solar Oak

 KMD621 Mojave Alder	 KMAH1232 Pearwood	 KMD947 Alabama Cherry	 KMAH1304 Oiled Cherry	 KMD7778 Regal Cherry
 KMD758 Wild Cherry	 KMD605 Cognac	 KMW7039 Windsor Mahogany	 KMD738 June Mahogany	 KMAG615 African Walnut
 KMW7922 Brighton Walnut	 KMAH1425 Cherry Blossom	 KMAH1552 Chocolate Pearwood	 KMW7943 Columbian Walnut	 KMAH1596 Macassar Ebony
 KMD777 Cordoba Pine	 KMW7947 Rio	 KMD7776 Penpine	 KMAH600 Candlelight	 KMD749 Hard Rock Maple
 KMW7911 Manitoba Maple	 KMW7909 Fusion Maple	 KMD791 PG Backer		

Colors and patterns are printed reproductions, and may not be exact matches. For maximum fidelity, please request product samples at: KMLcorp.com

4. TEXTURES

KML proudly offers a large selection of finishes. Reach out and touch an exclusive line of textured finishes.

 Edgewood	 Bistro	 Linen	 Diamond
 Crystal	 Satin	 Classic	 Smooth

5. DIVERSE CAPABILITIES

Our two state-of-the-art manufacturing facilities include eight laminating presses for fast and flexible panel production in a variety of dimensions and thicknesses. We complement this with a diverse range of customizing capabilities including edge banding, HPL, Slatwall machining, and special cut-to-size and cut-to-shape options to simplify your assembly process.
